

Test Prep Professionals *Marketing Auto-pilot*

Marketing one's tutoring or admissions business is most successful when it is based upon client referrals. Often, the boutique firms with whom we work, started off with a great product, a passionate approach, and a fully engaged staff of one or two.

With a foundation based on quality and word of mouth marketing, a logical next challenge is to scale the business. Yet, managing the addition of personnel while implementing a marketing program to keep additional staff busy can be a distraction.

With that in mind, we've developed a product that allows small companies a way to essentially add a fully functional CRM Automation Algorithm to their email efforts. We call it the *Marketing Auto-pilot*. This tool allows one to build referrals, add new clients, add testimonials and, manage Net Promoter score. We can set it up in 15 minutes and the outcomes are guaranteed. All that is needed is an email list of 125 persons.

Marketing Auto-pilot

- Dashboard access to see real time results
- A proprietary algorithm which drips the right message at the right time to the right contact
- A track-record of generating at least 16 outcomes per month
- The ability to modify offers at any time
- The ability to manage one's email client list through a quick and easy Email CRM

\$250/mo
