

## SAT & ACT Student Kits

Generally speaking, we believe that most tutors use either The Official SAT Study Guide or the Real ACT Prep Guide plus one or more texts with their students. The "one or more" is where we come in.

Our master tutors have put together a no nonsense and effective study kit designed to be used with the SAT blue book and the ACT red book.

### SAT or ACT Student Kits

1. Ten student workbooks plus one teaching guide, spiral bound and branded with your logo.
2. Approximately 200 pages of easy to follow strategies and practice problems
3. A detailed curriculum designed to help students embrace a growth mindset
4. Homework specifically directed to real problems sets from the test makers
5. Original practice problems
6. Easy to follow tutor-to-classroom syllabus to allow transitioning to small group
